Rio de Janeiro, Brazil.

Dear Sir:

We notice that there has been recently issued a 2 milreis piece showing the helmeted head of Caxias. We are enclosing two dollars in paper money and would appreciate it if you could send up to us several of these pieces, and if there are any other new pieces of other denominations we would appreciate them also. If this money does not take care of purchase, postage and registration let us know and we will send you some more. About two years ago your office was most courteous in sending the then new commemorative issue.

Very truly yours,

HW:JG

Curator
